

model series: HY-4-7 and HY-6-7

**Super Bright LEDs: RED, GREEN, YELLOW or BLUE - 7 INCH High Digits
4 and 6 DIGITS**

FEATURES and Options:

- * **Infra Red hand held REMOTE CONTROL for all functions**
- * **Direct Replacement for existing MASTER - SLAVE SYSTEM CLOCKS** (replaces round, mechanical or electronic)
- * 12 or 24 Hour and Military Display Format (user selectable)
- * Multiple Master-Slave correction modes (options):
 - Master-Slave Power Line Carrier sync (Simplex)
 - Master-Slave 2 Wire, RS485 Twisted Pair Sync/Communication
 - Master-Slave BCD digital, ASCII Time Code
 - RS232 and RS485 serial communication (PC port)
 - Master-Slave 2 and 3 Wire, 24V Minute Impulse Sync
- * Multi-Zone synchronized Master-Slave system (option)
- * Temperature Monitoring and Control (option):
 - Multi-Event Programmable Thermostat (up to 32 events per day)
 - Heating - Cooling Auto Change-Over
 - Inside and Outside Thermometer function
 - Min/Max Temperature Memory
 - Temperature Alarm and Relay outputs
- * Stand - Alone operation for Home or Office
- * Backup:
 - Self-recharging backup - NO BATTERY NEEDED
 - 10 Year Lithium battery option
- * Atomic Clock option, GPS option
- * PC Sync Master option
- * Day/Date/Month/Year Alternating display selection
- * Fully Adjustable Brightness
 - Manual via remote control
 - Auto-dimming option
- * Julian Day option
- * Auto Leap-Year correction
- * Day Light Savings correction
- * Timers:
 - Multi-Event Programmable Timer (option) (up to 32 events per each day of week)
 - Wake-Up Alarm Timer with soft buzzer control
 - Stopwatch function up to 1/100 sec resolution
 - External Start/Stop/Reset switch inputs (option)
 - Up/Down Presettable Timer and Counter with Alarm (up to 99hrs:59min:59sec or 999999 counts)
- * On-Board Alarms:
 - Internal Alarm Buzzer,
 - Internal or external Horns (option)
 - Alarm Relays (Form C, 10Amp/240V) (option)
- * NON-GLARE lens
- * NON-MULTIPLEXING - Camera friendly
- * Variety of enclosures:
 - Black - White - Stainless Steel - Custom Colors

Metal and Stainless Steel Enclosures

IR Remote Control

SPECIFICATIONS:

Supply Voltage:	115V or 208-240V, 50/60Hz 24 or 12V AC/DC
Power:	12VA average
Operating Temperature:	0C to +50C (32F to 122F) (military range optional)
Humidity:	95% RH max. non cond.
4-digits model Dimensions:	24.5" x 10" x 3" (62.3cm x 25.4 x 7.6cm)
6-digits model Dimensions:	35.25" x 10" x 3" (89.5cm x 25.4cm x 7.6cm)
Visibility:	Easy up to 250 Ft. (80m)

HIGH RELIABILITY SELENA Clocks are ideal for **DIRECT REPLACEMENT** of obsolete and failing Master-Slave system clocks like round electro-mechanical clocks.
Just take down old clocks and hang up SELENA Clocks. No additional mounting brackets or wiring necessary.

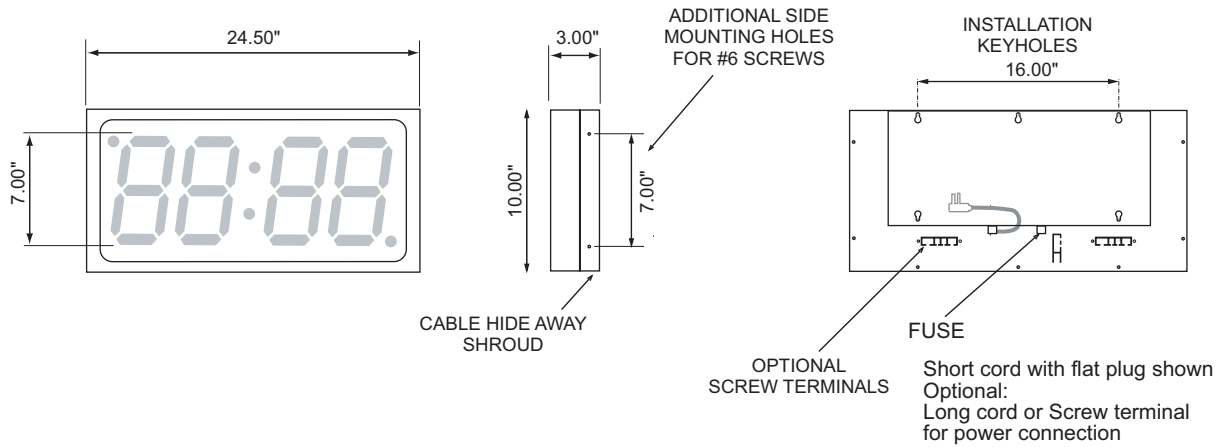

All functions and presets may be accessed via the hand held remote control just like TV remote. If Power Fails, even **WITHOUT Battery** the clock will accurately work for over 2 weeks. With Auto-dimming option the display will dimm down automatically in the evening or when lights are turned off. The display will become brighter with bright ambient light.

Inside and Outside Temperature Display option shows the current weather conditions. Alarm buzzer and thermostat options with internal relay can control heating and A/C cooling. Relaxing, No-Flicker, camera friendly display technology. Operation of all functions including Thermometer, Programmable Timer, Alarm Clock etc. via the Remote Control.

**Best priced on the market. Most Features.
Easiest to INSTALL and USE in its class.**

standard colors: white, black and stainless steel
